VENT-FREE GAS BURNERS

Empire

LOFT

LOFT BURNER SYSTEMS

Loft Burners deliver a contemporary look with an artistic flair – by itself or accessorized to suit the room. Choose decorative tops and firebox liners, in reflective black or brushed stainless steel, and crushed glass in black polished, blue clear, and clear frost.

FLEXIBILITY

A vent-free Millivolt Loft Burner may also be installed as a decorative appliance in a vented fireplace to provide ambiance and light – but without the heat. In a vented installation, the burner cannot be operated by thermostat, and the flue damper must be blocked open. A damper clamp is included with all Loft burners. Because IP Loft Burners include a thermostat remote and may not be installed as decorative appliances, a non-thermostat remote is available.

FEATURES

18, 24 and 30-inch Vent-Free Burners – up to 40,000 Btu

Millivolt models include an on/off switch but will operate with Empire remote controls and thermostats

Intermittent Pilot models include a variable flame height thermostat remote control with 30 percent turndown (for vent-free installation only)

Special 10,000 Btu Millivolt model for bedroom applications (where allowed by code)

MEDIA

BRUSHED STAINLESS
STEEL DECORATIVE TOP

POLISHED BLACK
DECORATIVE TOP

NO DECORATIVE TOP

BLUE CLEAR CRUSHED

TOPAZ CLEAR DROPS ONE-INCH

COPPER REFLECTIVE CRUSHED

BRONZE REFLECTIVE CRUSHED

GLACIER ICE DROPLETS 1/2-INCH

CLEAR FROST CRUSHED

BLACK POLISHED CRUSHED

ONYX SOLID DROPS ONE-INCH

HANDHELD REMOTES

Turn the fireplace on or off from across the room—no bending, kneeling, or adjusting controls by hand.

FRBC / FREC

FRBTC2 / FRBTP2

WALL REMOTES, SWITCHES, AND THERMOSTATS

Advanced remote options can automatically maintain a comfortable room temperature, eliminating the need for constant adjustments.
