

Fireplace Screen Design Guide

Create your own custom fireplace screen with Cascade Home Decor

Polished Copper Barstock Finish

QUALITY - Manufacturing

For many years, Cascade Coil has manufactured custom fireplace screens and accessories for the home and hearth market. Made in the USA from high quality components, our products represent the finest fireplace products available for residential and commercial applications.

SAFETY - Protect your home

To keep sparks and burning embers inside your fireplace, Cascade Home Décor offers 3 firescreen mesh sizes for increased spark protection. For even greater safety, we recommend adding a bottom bar to help keep logs from accidentally rolling out of your fireplace.

BEAUTY - Elegant Options

Create your own custom fireplace screen by choosing from over 40 designer finishes for your top bar and bottom bar. Select your firescreen finish and add wands or batons to complete the look you're after. We also offer custom full frame, arched and multi-sided fireplace screens.

Contrasting Ultra Black Stainless Steel bar (41)
St. Stl. mesh

Announcing the Cascade collection of Stainless Steel bar stock fireplace screens specifically designed for outdoor as well as indoor use.

Included in this collection is the new Ultra Black Stainless Steel finish. This finish receives outstanding reviews.

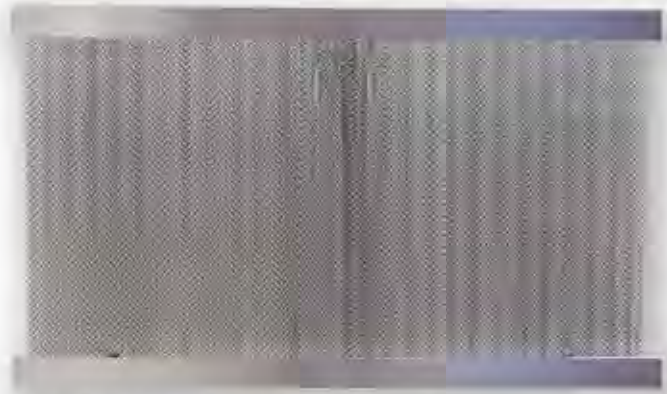

The Cascade Stainless Steel collection includes four natural bar finishes and ten powder coated finishes. Natural finishes include the beautifully deep and mirror like Ultra Black Stainless Steel, Polished Stainless Steel, Satin Stainless Steel, and hand finished Swirl Stainless Steel. Powder coated finishes include Satin Brass, Satin Copper, Classic Bronze, Satin Bronze, Satin Nickel, Aged Steel, Aged Bronze, Tuscan Iron, and Pewter. All bar stock screens are available with Stainless Steel mesh, Ultra Black Stainless Steel mesh, or Powder Coated Stainless Steel mesh providing a large range of striking combinations. Stainless steel backrods and zinc or galvanized mounting hardware are always included and meet outdoor use requirements.
