

Foundation Series

IRONHAUS

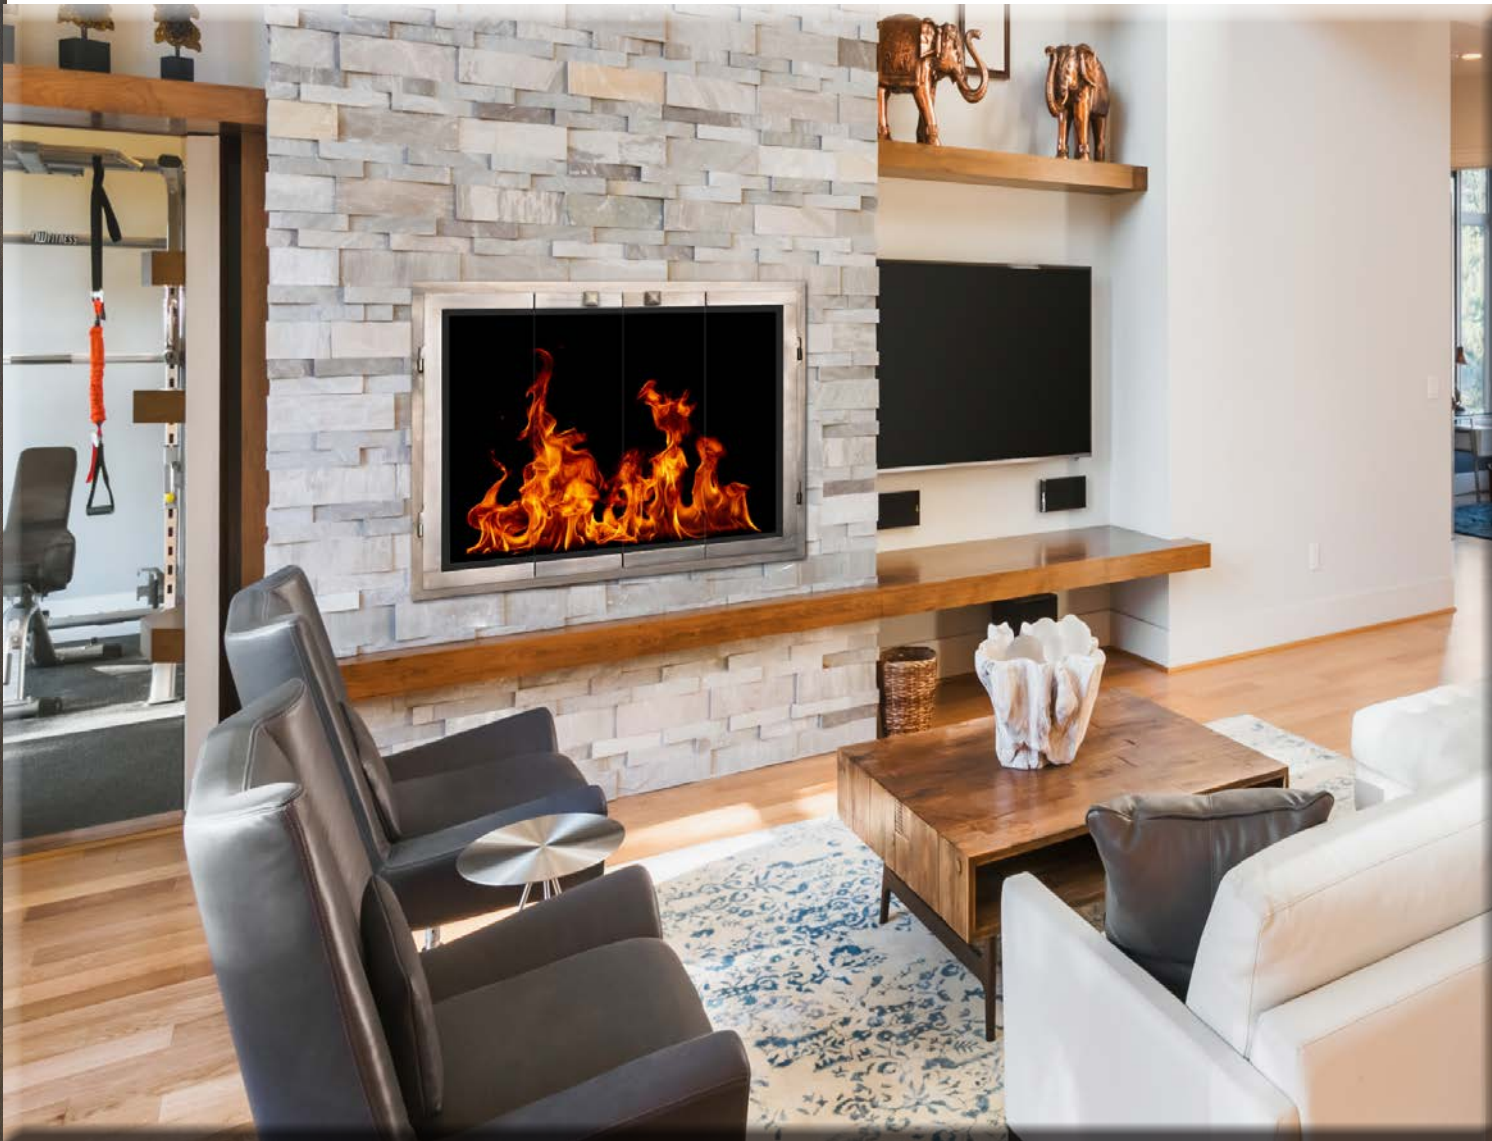

The **Foundation Series** includes eight fireplace door models, each with its own unique “transitional” design style. Design elements like Hammered T-Bar handles, decorative corner brackets and thin door frames create fireplace doors with current design trends. Thinner modern lines makes this easy to order and price conscious door an easy decision for today's transitional designed homes.

The Original

The Original fireplace door shows that simplicity never goes out of style. Available in Ironhaus' exclusive Hand Applied or powder coat finishes, the Original is custom built to your fireplace dimensions to ensure your fireplace looks great and fits perfectly.

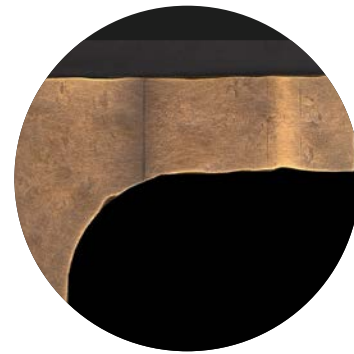

- Available with bifold or cabinet doors
- Hand Applied or powder coat finishes
- Crafted from 3/16" thick steel
- Six different handle choices
- 1" wide outer frame; 1-1/2" wide door panels

Maxfield

The Maxfield is the epitome of modern fireplace style. The exclusive T-Bar handles are forged by hand to create a fireplace door that incorporates today's hottest design trends. The handles can be done in a variety of finishes including Matte Brass and Pewter to really make them the "focal point" of the door.

- T-Bar Handles available in Ironhaus' exclusive plated, Hand Applied & Powder Coat finishes
- Door frame available in Hand Applied & Powder Coat finishes
- Bifold or cabinet doors
- Made from 3/16" hand crafted steel
- 1" wide outer frame; 1-1/2" wide door frame
- Available for masonry or factory built/ZC fireplaces

Cast Strong

The Cast Strong takes “old world” details and makes them modern. The hand-cast corner brackets add rustic elements that are traditional yet current. The Cast Strong is a fireplace door inspired by the past but designed for today.

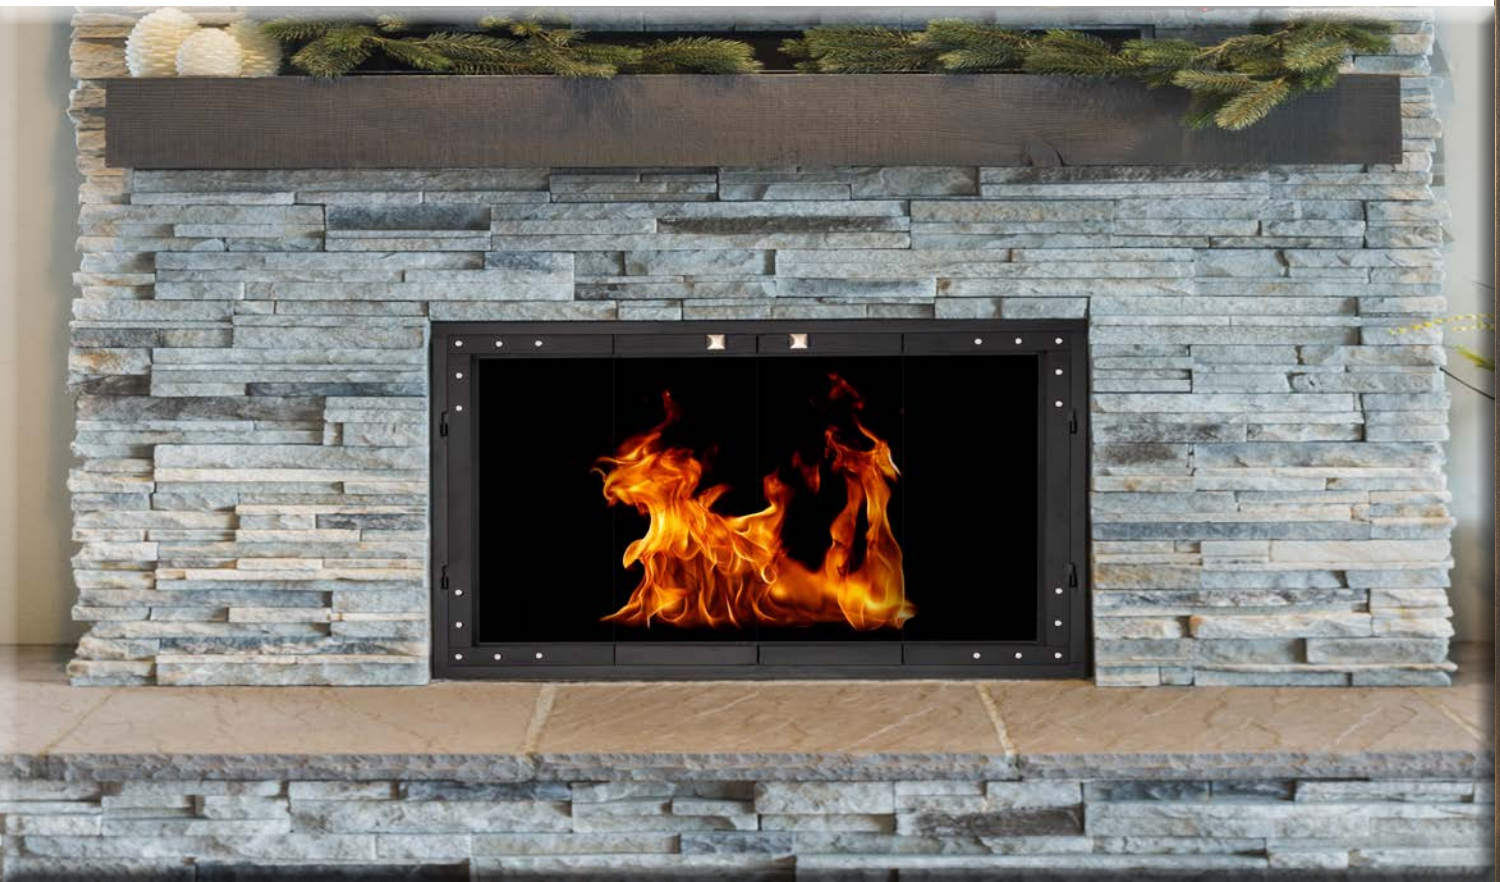

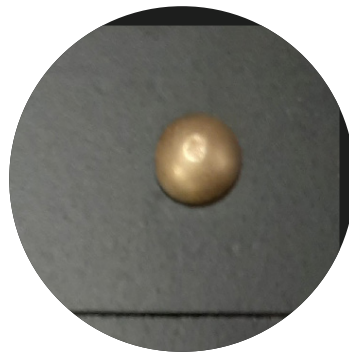

- Door frame available in Hand Applied & Powder Coat finishes; Corner Brackets & Handles available Ironhaus’ exclusive Plated finishes
- Corner brackets available in hammered or non-hammered texture
- Square, Knob (E2) or Long Square handles
- Available in rectangle or arched frame
- Hand crafted from 1/4” thick steel
- 1” wide outer frame; 1-1/2” wide door panels
- Available for masonry or factory built/ZC fireplaces

Brentwood

The Brentwood proves the simplest details can make a fireplace door look amazing. The subtle rivets in each corner of the door bring a contrast of color that elevates your fireplace to whole new level of style.

- Door frame available in Hand Applied and Powder Coat finishes; Rivets & Handles available in Ironhaus' exclusive Plated finishes
- Bifold or cabinet doors
- Hand crafted from 1/4" thick steel
- Square or knob handles
- 1-1/4" wide outer frame; 1-1/2" wide door frame
- For masonry or factory built/ZC fireplaces

Summerton

The Summerton's rivet detail brings an "industrial" look to your fireplace that combines strength & beauty. Choose from a variety of Ironhaus' Hand Applied finishes, including Black Copper and Buff Pewter, to create a custom fireplace door that will look amazing for generations.

- Rivet detailing around the entire door frame
- Available in Hand Applied and Powder Coat finishes
- Bifold or cabinet doors
- Knob handle
- Hand crafted from 1/4" thick steel
- 1" wide outer frame; 1-1/4" wide door panels
- For masonry or factory built/ZC fireplaces

Brighton

The Brighton fireplace door incorporates hand bent lattice detail across the doors for a delicate yet strong look. The elegant transitional style works with almost any decor.

- Available in Ironhaus' Hand Applied or Powder Coat finishes
- Cabinet doors only
- Hand crafted from 1/4" thick steel
- Six handle choices
- 1" wide outer frame; 1-1/2" wide door panels
- For masonry and factory built/ZC fireplaces

Grayson

The Grayson features several examples of Ironhaus' blacksmith heritage. The saddle joint detailing and the hammered edges on the doors are all created by hand. You can create a fireplace that fits perfectly with today's styles and honors "old world" craftsmanship.

- Available in Hand Applied and Power Coat Finishes
- Bifold or cabinet doors
- Hand crafted from 1/4" thick steel
- Six handle choices (mounted vertically in center)
- 1" wide outer frame; 1-1/4" wide door panels
- For masonry or factory built/ZC fireplaces

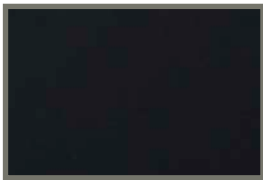

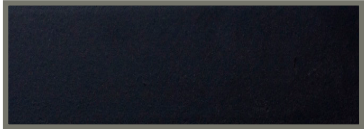

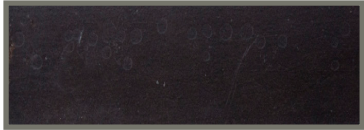

Forge Crest

With its strap hinges and corner riveting, the Forge Crest is a classic look that is always in style. The rustic charm works with almost any fireplace style.

- Available in Hand Applied and Powder Coat finishes
- Square or Knob handles
- Bifold or cabinet doors
- Hand crafted from 1/4" thick steel
- 1-1/4" wide outer frame; 1-1/2" door frame
- For masonry or factory built/ZC fireplaces
